

Shapes of Kastner Design framed photographs

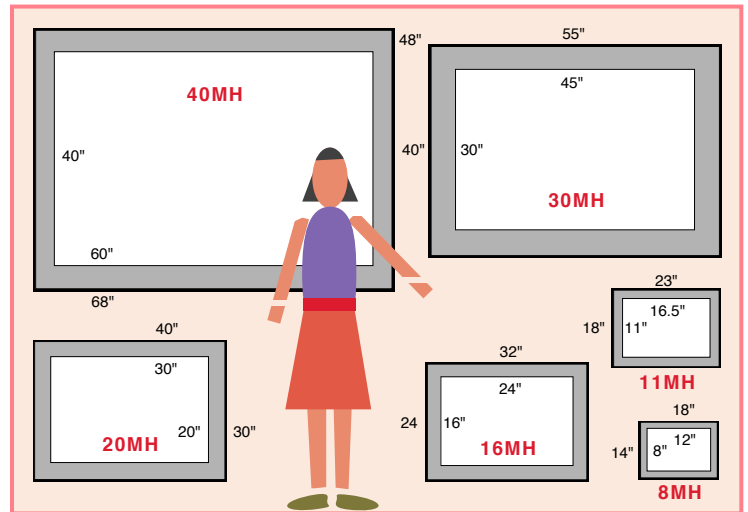

Vertical R Shape

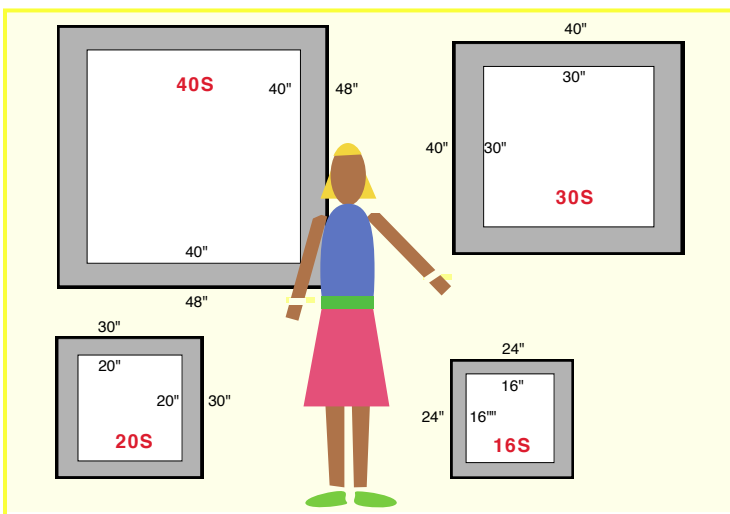

Horizontal R Shape

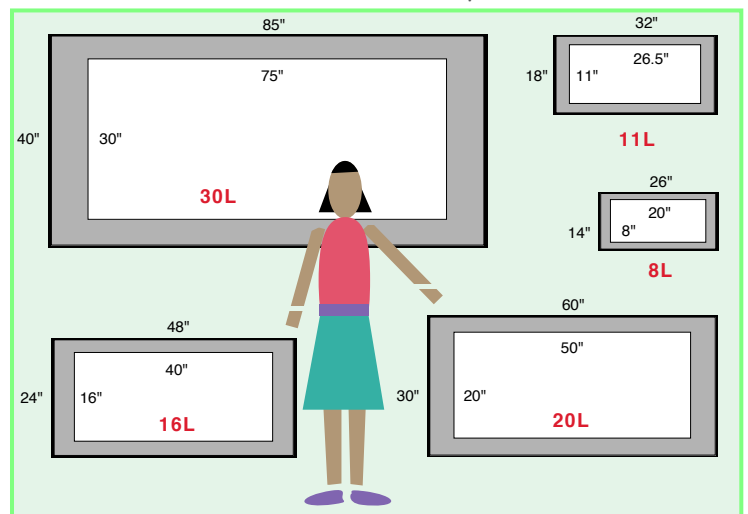

Vertical M Shape

Horizontal M Shape

S Shape

L Shape

The photographs in our collection are produced in four different shapes, depending on the photographer's design of the finished composition and the camera used. The four shapes are listed on the price list as S (square), R (short rectangle), M (medium rectangle) and L (long rectangle).

Each shape is produced in a number of sizes; the numerical prefix indicates the short dimension of the image in inches. As an example, a 30M is an M shaped composition 30" wide or high, depending on its orientation. We call a vertical 30M a 30MV, a horizontal a 30MH.
